

What makes a Nuclear Decommissioning Project Successful?

(How benchmarking will help your company)

CRA risk forum
26th – 27th September, 2018

For copies of Diletta Colette Invernizzi's presentation, please contact the author:
cndci@leeds.ac.uk

Papers co-authored by the Diletta also available on request:

- How benchmarking can support the selection planning and delivery of nuclear decommissioning projects
- Managing social challenges in the nuclear decommissioning industry: A responsible approach towards better performance
- The need to improve communication about scope changes: frustration as an indicator of operational inefficiencies
